# General Information

## Overview

Between version releases of PC\*MILER, updates and patches are periodically made available as the need arises. These may include corrections to reported errors in the software or data, or access to new data releases (for applicable products and license types).

This document provides information on the following release:

<b>Product</b>	<b>PC*MILER Tolls 30</b>
<b>Update Type</b>	Toll Data Update
<b>Date Released</b>	April 2017
<i>PC*MILER Tolls 30 was originally released in June 2016, with toll data updates issued on the following schedule:</i> <b>2016:</b> September, December <b>2017:</b> January, April	

- NOTES:**
- Patches and updates are cumulative, meaning they include items from previously released patches/updates of the same type and for the version identified. ALK strongly recommends regularly checking for and installing the most current patches and updates applicable to your license and version.
  - If a PC\*MILER product was purchased along with ALK's Annual Support & Update Program (an AUP license purchase), customers are entitled to use PC\*MILER during the term of their agreement as well as to receive data updates when and if available. Otherwise, PC\*MILER is purchased as a Perpetual license. For more information on upgrading a Perpetual license to an AUP license, please contact a PC\*MILER Account Executive at 800-377-6453 ext. 1 or email [sales@alk.com](mailto:sales@alk.com).

# Downloading and Installing Updates and Patches

**NOTE:** This feature requires an Internet connection.

The PC\*MILER web-based update tool makes it easy to download and install software patches and updates. To access this feature, use the following steps:

1. Close all open instances of PC\*MILER and its connectivity products. If a third-party program that accesses any PC\*MILER component is running (for example, PC\*MILER|Connect or PC\*MILER|Mapping), it must be closed before updating.
2. Open PC\*MILER again, and select Help > *Check for Updates*. After a few moments, the PC\*MILER Updater window is displayed.
  - a. If no updates are available in the Available Updates window, PC\*MILER is up-to-date. Stop here and close the Updater window.
  - b. If updates are listed in the Available Updates window, use the remaining steps below to update PC\*MILER.
3. In the Download & Install drop-down menu next to each available update, select either *Download & Install* to download and install right away, or *Download* to download now and install at a later time. Note the version numbers of the updates that will be downloaded so that the installation can be verified. (This version number is used in Step 4 below.)

Selecting either option will begin the download process. The progress of the download is displayed in a progress bar.

- a. If *Download & Install* was chosen, the InstallShield Wizard will open when the download is finished. Follow the instructions to complete the installation. After installing, the update is listed under “Installed Updates” in the Updater window.
  - b. If *Download* was chosen, the button to the right will say “Install” when the download is finished. The installation can be completed as described above at any time in the future by opening the Updater window and clicking *Install*.
4. To verify the update installed properly, select Help > *About...* in the About group. A window shows the Software Version number under “This Product is Licensed To”. The version should match the update that was downloaded and installed.

# Release Information

---

## General Information

Updates to ALK's North American Toll Data ensure that the most recent toll costs published by tolling authorities are reported in PC\*MILER's route calculations.

**NOTE:** If multiple versions of PC\*MILER|Tolls are being used, there may be different updates available for one version and not the other because of a newer road network; with newer toll roads/rates that are accessible in more recent product versions. Because of this, ALK recommends using the current version of PC\*MILER|Tolls, with the most recently released toll and map data updates installed, to calculate routes, mileage, toll costs and maps.

## Coverage and Statistics

ALK maintains over 2,600 physical toll plaza locations across North America. The tolls database also includes rates for cash and discount toll programs, ticket and barrier systems, time of day variations, and vehicle dimensions based on weight, axle count, and trailer count.

The toll discount programs currently supported throughout the U.S. and Canada include:

Discount Program	Valid In
<b>407 ETR Transponder</b>	ON Canada
<b>A25 Transponder</b>	QC Canada
<b>A30 EXPRESS Transponder</b>	QC Canada
<b>BreezeBy</b>	OR
<b>Cruise Card</b>	GA
<b>Downbeach Express Pass</b>	NJ
<b>E-Pass</b>	TX
<b>E-Pass Canada</b>	NS Canada
<b>ExpressPass</b>	NY, ON Canada
<b>EXpressToll</b>	CO

<b>Discount Program</b>	<b>Valid In</b>
<b>EZ Tag</b>	TX

<b>SunPass</b>	FL
<b>TollTag</b>	LA, TX
<b>TReO</b>	BC Canada
<b>TxTag</b>	TX
<b>Wabash Pass</b>	IN

# Release Details

This toll data release includes the most up-to-date nationwide U.S. and Canada toll costs for heavy, medium and light-duty vehicles. The toll rate changes in this release are listed in the tables below.

- NOTES:**
- Toll data updates are cumulative, meaning they include items from previously released updates of the same type and for the version identified. ALK recommends ensuring that the current version of PC\*MILER|Tolls, with the most recently released toll and map data updates installed, is used to calculate routes, mileage, toll costs and maps.
  - The information listed in the tables below identify the rate changes included in the cited releases and indicates when each rate change goes or went into effect. When generating routes, if a specific departure or arrival date/time is chosen, the toll rate that is in effect during that specified time period will be reported. If no departure or arrival date/time is specified, the time period will be chosen based on the date of the system clock and the most recent rates available for the version.

## California
